CHIA NAN UNIVERSITY OF PHARMACY AND SCIENCE

About Chia Nan University of Pharmacy and Science (CNU)

CNU was first founded as Chia Nan Junior College of pharmacy and was one of the only two junior colleges that offer programs in training pharmacists in 1966. After 43 years, CNU has been a leader in defining the work of professionals in the field of pharmacy and health and produced the largest number of graduates in the field of pharmacy. Currently, CNU has 28 departments in four colleges. There are approximately 18,000 students enrolled and about 499 full-time faculty members. The quality of our faculty members are at top among private technological universities in Taiwan.

About The College of Sustainable Environment, Chia Nan University of Pharmacy and Science (CNU-CSE)

CNU-CSE was founded on Aug. 1, 2004. The main objective is the training of applied science and technology, and the education of professional specialists. Moreover, CNU-CSE is schemed out and organized in three objects for future development, including Environmental Resources and Safety Management, Ecological Industry Development, and Green Energy Investigation and Disaster Prevention. Thus, our graduated students are expected to have healthy, optimistic and confident attitudes, and possess fortitudinous and artistic personality, which will work cooperatively with a team and develop international perspectives as a professional in the field of environmental protection.
